

Pam Moore, MBA, CPA experiences as a member of WBSN. I joined in May 1993 with Monica Ryan, Village Plumbing being my sponsor. I was already good friends with Nancy Wilfong, Pat Hogan, Linda Kay, and probably a few others. I jumped right in and helped with the anniversary celebration committee, so when it was time to elect officers - social chair I became. We had our first and only ropes course down at South Shore Harbor. Then I move on to Secretary, Treasurer until I reached President in 1999 and the Women of Excellence that year too. Then over to Anniversary chair. I have been on every committee at least once, now that I am currently the Treasurer for the foundation and the social committee. Some of my closest friends in life are members of WBSN. Also with some of my long time clients are members or former member of WBSN. For the past seven years, Mickey Walters, Kathy Garza, Noel Paden and I along with Joy Clayton up to four years ago when she retired, have been on the same committees since we have found a strong friendship, know we can depend on each other to get the jobs done timely and work extremely well with each other. During 2005, we spent nine months working on the silent auction for the 20th anniversary celebration. Even with all the hard work and time spent, it was most rewarding knowing how much money we were raising to give scholarships. One of my favorite things to do for WBSN is a program whether it is a tax update or a book review, I love to share my business knowledge with those that want to listen. The retreats are always fun and I have only missed one in my thirteen years with the group.
